

**Do head foul odors keep
you sitting on the dock?**

**Try Drain Relief®
by BioStim**

Drain Relief® Marine Formula is an eco-friendly microbial product. It controls foul odors by infusing naturally occurring, waste-eating microbes into the holding tank of your boat. The microbes digest the odor causing waste and convert it into carbon dioxide and water.

Drain Relief's eco-friendly formula contains no caustic or corrosive chemicals, no free enzymes and no emulsifiers. It controls odor naturally, the way nature intended.

Drain Relief is easy to use. Simply flush a pill or the powdered formula down a toilet. That's all there is to it. (reapply each time the tank is emptied)

**Sail off into the sunset
with no more foul odors!**
